

# FIRST PILING AND GEOTECHNICAL SOLUTIONS<sup>®</sup> (FPGS<sup>®</sup>) – Company Profile

<http://fpgs.co.tz>

**Our DNA**

# WHO WE ARE

First Piling ® and Geotechnical Solutions Limited ( FPGS® ) formerly Franki Piling was formed as a response-in-action to narrow the gap between existing engineering practices in the construction industry, and using the best technology and experience to assess, mitigate and provide quality solutions on geotechnical risks.

With the requirement to provide Tanzania and Africa with more robust geotechnical engineering that would use cutting-edge technology, a team of experts saw an opportunity and devised a responsive plan that would put Geotechnology on the map, but more importantly, keep our communities from environmental harm.

Registered as a specialist civil contractor class one (1), our team of experts are equipped with the knowledge, resources, skills, experience, and technology needed to provide and deliver the best geotechnical solutions with design and installation of foundation to our clients.

What FPGS® offers is the prevention of loss of funds, time, and manpower resources that may occur when construction projects fail due to unassessed soil or inadequate foundation solution or construction.

## COMPANY VALUES

We take initiative in creating the best work environment to achieve the goals we envision for our clients and the geotechnical (foundation) community.

### **Integrity**

We encourage all FPGS® employees to always behave with integrity, inside and outside of the work environment.

### **Accountability**

We foster healthy and productive communication among our team, and that creates confidence within all employees in being responsible for their actions, decisions, performance, and behavior.

### **Collaboration**

Our teams from all departments collaborate to ensure our projects run smoothly and our clients are satisfied.

### **Safety**

In ensuring all workers are safe, we encourage positive behaviors to help avoid injuries or any health complications. We have strict safety policies in place, where everyone is to adhere to our safety protocols while in construction sites. This includes wearing PPE such as helmets, boots, and high-visibility vests. We also set up safeguards in construction sites.

FPGS® follows government safety policies in making sure our practices do not harm the environment.

### **Quality Policies**

We strive for continuous improvement in our ability to deliver for our clients' needs. Whether it be capacity-building training or upgrading our tools and technology, we go for it.

### **Social Responsibility**

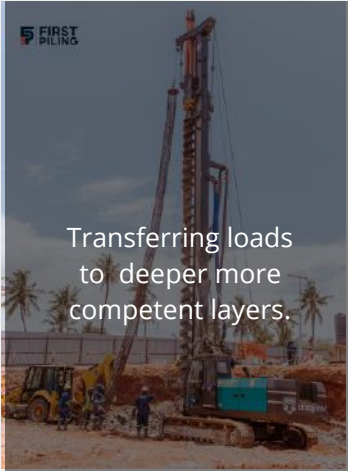

FPGS® is committed to the well-being of the communities around us. We ensure our practices are environmentally friendly by not only reducing material use and reusing waste, but also improving machinery efficiency in order to minimize carbon emissions.

FPGS® implements the human right to equal opportunities. We believe in thriving through an inclusive and diverse environment.

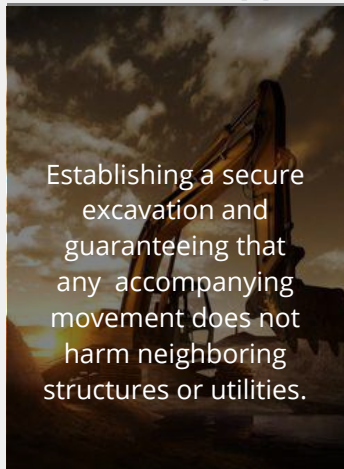

# EXPERTISE

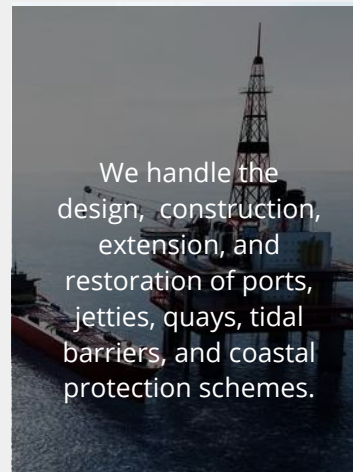

SOLUTIONS  
**Bearing Capacity**

SOLUTIONS  
**Excavation Support**

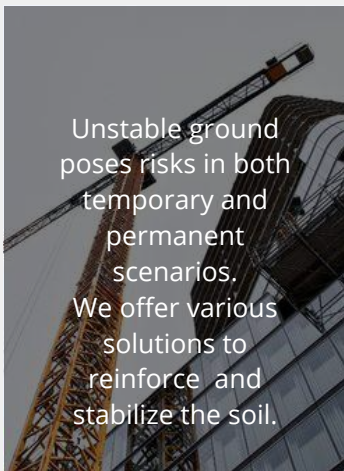

SOLUTIONS  
**Marine Structures**

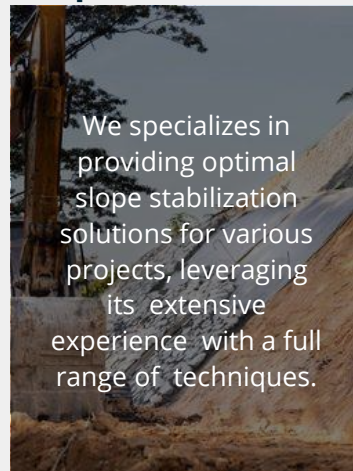

SOLUTIONS  
**Remediation**

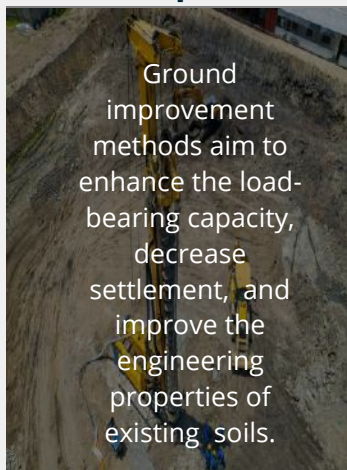

SOLUTIONS  
**Stabilization**

SOLUTIONS  
**Slope Stabilization**

TECHNIQUES  
**Ground Improvement**

TECHNIQUES  
**Grouting**

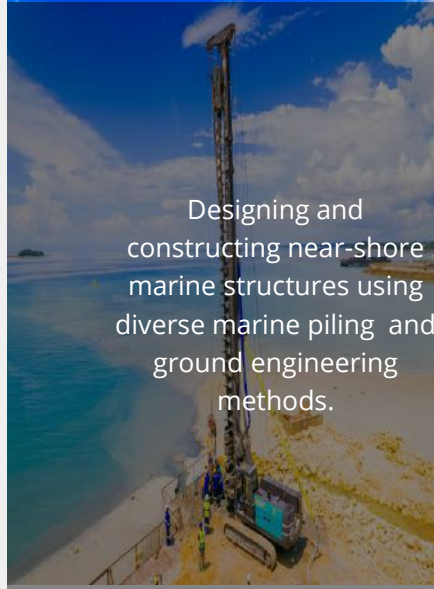

TECHNIQUES  
**Earth Retention**

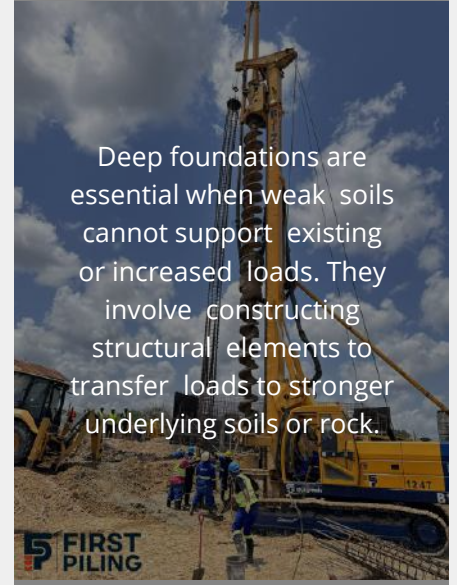

Earth retention systems are designed to securely hold the soil in place, preventing any undesired movement or shifting.

TECHNIQUES  
**Marine**

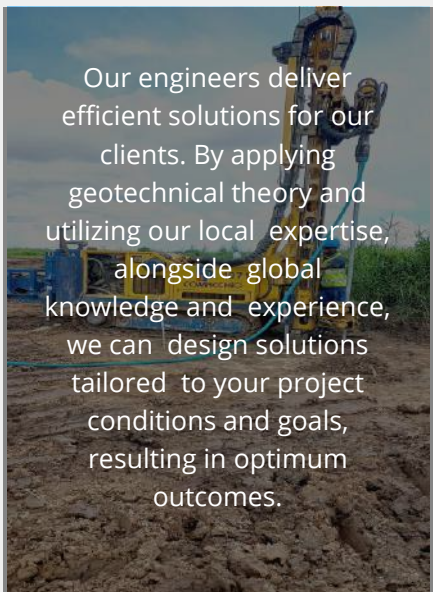

Designing and constructing near-shore marine structures using diverse marine piling and ground engineering methods.

TECHNIQUES  
**Deep Foundations**

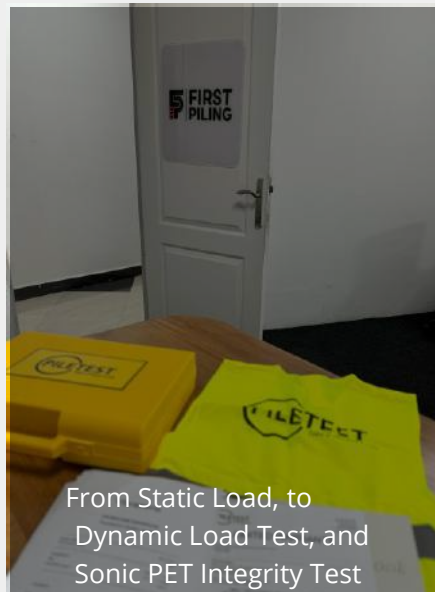

Deep foundations are essential when weak soils cannot support existing or increased loads. They involve constructing structural elements to transfer loads to stronger underlying soils or rock.

**Design & Build**

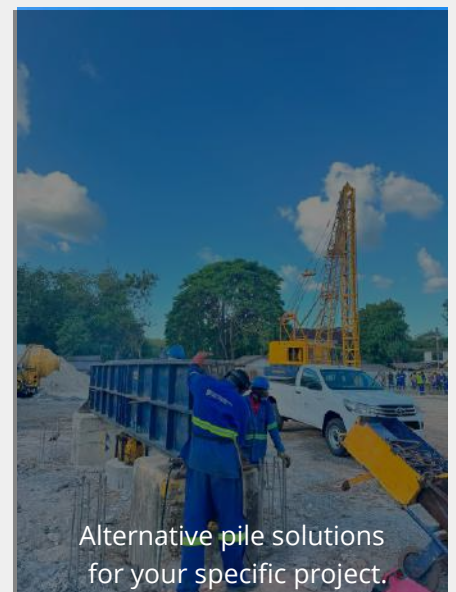

Our engineers deliver efficient solutions for our clients. By applying geotechnical theory and utilizing our local expertise, alongside global knowledge and experience, we can design solutions tailored to your project conditions and goals, resulting in optimum outcomes.

**Pile Quality Checks**

From Static Load, to Dynamic Load Test, and Sonic PET Integrity Test

**Proven Alternative Solution**

Alternative pile solutions for your specific project.

**Previous projects**

# INVEST WITH US

## **BUILD A BETTER FUTURE**

Investing with us means investing in an organization that prioritizes ethics, compliance, and good practice. Our commitment to these values has established us as a leader in piling and geotechnical solutions across Africa. We hold ourselves to the highest standards of business ethics and human rights, ensuring that we always comply with all applicable regulations. Everyone on our team is fully on board with these values, from top management to on-site workers.

But we don't just talk the talk – we walk the walk. We've invested heavily in our team of experts, who bring years of experience and professionalism to every project. From planning to completion, we're dedicated to providing our clients with industry-standard solutions that meet their needs and exceed their expectations.

At our core, we believe that success isn't just about making profits – it's about how you achieve them. That's why we're committed to building a sustainable future for our clients, our employees, and the communities we serve.

Join us on this journey towards excellence. Together, let's build a better and resilient future.

## SUSTAINABILITY POLICY

FPGS® is committed to sustainable and responsible business practices in the construction industry. We recognize the importance of minimizing our environmental footprint, promoting social responsibility, and delivering projects that contribute positively to the communities in which we work. This Sustainability Policy outlines our commitment to these principles.

### Environmental Sustainability.

**Resource Efficiency:** We will strive to use resources efficiently, including water, energy, and raw materials, in all phases of our projects. We will implement measures to reduce waste and encourage recycling and reuse.

**Green Building Practices:** We will promote sustainable building practices and materials, aiming to achieve high levels of energy efficiency and environmental performance in our construction projects.

**Biodiversity Preservation:** We will take steps to protect and enhance biodiversity on our construction sites, working to minimize the impact on local ecosystems.

### Social Responsibility

**Health and Safety:** The safety and well-being of our employees, subcontractors, and communities are important. We will maintain safe working conditions and uphold the highest health and safety standards.

**Community Engagement:** We will engage with local communities affected by our projects, seeking their input and addressing their concerns. We will strive to leave a positive legacy in the communities where we operate.

**Local Employment and Training:** We will endeavor to hire locally and provide training and employment opportunities to residents whenever possible.

### **Our Ethical Business Practices**

**Transparency:** We will operate with transparency and integrity in all our business dealings, complying with all applicable laws and regulations.

**Supplier Responsibility:** We will work with suppliers who share our commitment to sustainability and ethical business practices.

### **Continuous Improvement**

**Monitoring and Reporting:** We will regularly monitor our sustainability performance and report on our progress to stakeholders.

**Continuous Learning:** We will stay informed about the latest developments in sustainable construction practices and continually improve our processes and technologies.

### **Compliance**

FPGS® is committed to complying with all relevant environmental, social, and legal requirements. This Sustainability Policy reflects our dedication to a sustainable future for our company and the construction industry as a whole.

**Director**  
**Mr. Million Lodia**

  
**February 2026**

## HEALTH, SAFETY, ENVIRONMENT & QUALITY (HSEQ) POLICY

First Piling and Geotechnical Solutions ® Limited (FPGS® ) offers a wide range of geotechnical solutions including ground improvement, design and build piling solutions, project appraisal and contract agreements and completion of geotechnical works.

### Our commitment

First Piling and its employees are committed to:

- Provide health and safety to all our employees and stakeholders, third parties involved, and continuously identify and assess workplace hazards, implement preventive measures, and provide adequate training and resources to ensure a safe working environment.
- Provide a clean and environment and comply with applicable environmental laws and regulations, implement sustainable practices, and strive for the responsible use of natural resources. Our goal is to prevent pollution, reduce waste, and promote environmental sustainability in all our activities.
- Proactively assess and manage risks across all aspects of our operations, including potential impacts on the health and safety of our employees. This includes the assessment and management of risks related to public health crises, such as Covid-19
- Delivery of product and services that meet or exceed customer expectation. Quality is an integral and critical part to our process.
- Comply with all relevant laws, regulations and actively monitor and adapt to changes.
- Continuous improvement, encouraging all employees to participate in identifying opportunity for enhancement in our HSEQ performance. Regularly review and update our policies and procedures to reflect world best practices.
- Communicate and provide ongoing training, support and resources to empower our workforce and ensure all employees and stakeholders engaged with FPGS ® are informed about our HSEQ policy and objectives.
- Ensure that every employee is responsible for the HSEQ implementation and expect full accountability for individual actions and decision. We shall recognize and reward exemplary HSEQ performance and address any deviations promptly and appropriately

### Policy Implementation

This HSEQ policy applies to all FPGS® employees. We are committed to ensuring its effectiveness by regularly reviewing our performance, objectives and targets. All employees are responsible for adhering to safety guidelines and reporting any safety concerns promptly, and honestly.
